

The Original NitroPress

The original NitroPress offers an easy and affordable approach to serving nitro beverages at home, in a cafe, or any hospitality environment. This world-first professional grade nitro dispenser enables you to infuse your coffee, cocktail and tea beverages with pure nitrogen to create a thick and creamy texture and smooth mouth feel. Add some extra serving options to your plain cold brew or serve multiple Espresso Martini cocktails with ease without the requirements of machinery, power, or large gas cylinders.

NITROPRESS®

Instructions:

1. Fill canister with cold brew coffee (add ice if desired).
2. Screw on canister head tight to ensure a seal is made.
3. Insert pure nitrogen Coffee Cocktail Charger into the charger holder.
4. Tighten cartridge cap to pressurise the device.
5. Shake the NitroPress for 30 seconds or so before each serve for best results.
6. Pull trigger and dispense into a clear glass for best effect.
7. Once all liquid is dispensed, pull the trigger to release pressure.
8. Unscrew the canister head and repeat from Step 1.
