

## Aluminium Alloy 'PRISM' Hand Coffee Grinders

The Hario PRISM Aluminium Alloy Coffee Mill features a solid aluminium alloy body and an easy-grip square shape for stable coffee grinding. Durable, sharp ceramic burrs will never rust and will not affect the flavour of the beans.

With a silicone base to prevent slipping and detachable burrs, the Hario PRISM Coffee Mill is a functional and sturdy coffee hand grinder suitable for a range of brewing methods including paper filter, syphon, and French press.

Colour: Black, Silver  
Size: W145 x D52 x H200mm  
Burrs: Ceramic  
Outer Material: Alluminium Alloy

**Smart G Black**  
MSA-2-SV

The Hario Smart G Coffee Mill is available in Transparent Black and Transparent colours, and features ceramic burrs, a compact body, and a silicone rubber band to store the handle when not in use. With the Hario Smart G, you can see how much coffee you have ground as you go, without taking apart the mill.

The Smart G Coffee Mill will grind coffee beans finely or coarsely and is easily adjustable. Each part can disassemble for easy cleaning and maintenance.

Colour: Transparent, Transparent Black  
Size: W150 x D53 x H190mm  
Burrs: Ceramic Capacity: 24g
